Lyons Township High School Hockey Club

OUR MISSION

Each year Lyons Township Hockey Club provides students at Lyons Township High School with the opportunity to play high school ice hockey. The club strives to organize quality ice hockey at a level consistent with the player's ability. While LTHC is not a school sponsored sport, structure and discipline are provided giving players a strong sense of responsibility, and accountability to themselves and their team.

Our purposes in doing so are to:

- **Promote good health and physical fitness**
- **Teach sportsmanship and fair play**
- **Promote team unity**
- **Develop each player's skill and understanding of ice hockey**
- **Promote the sport of ice hockey in our high school and community**

OUR PROGRAM

LTHC takes pride in providing players with the best possible instruction and coaching allowing players to develop their hockey skills throughout their four high school years. We feel that we have compiled an un-beatable coaching staff for the 2008/09 season.

Doug Bosse- Hockey Director/Varsity Head Coach

Doug has been a player through out his childhood in Chicago and played Jr. Level hockey in Seattle, WA for 4 years, with minor pro experience, semi-pro experience and professional hockey experience in Europe. He brings his knowledge of the game and skill development to the club and is very passionate about sharing that knowledge with the players. Coach Bosse has been with LTHC for 3 years serving the last two years as the JV Head coach and one as a skills/power skating coach .

Rich Southworth – JV Head Coach

Rich has coached with LTHC for four years and returns for his fifth season in 08/09 even though his son is moving on to college. This show's his passion for the game and for coaching! During his four years, Coach Southworth spent 2 years with JV, winning both the ISHL and SICHA league championships in 2005/06 and an ISHL league championship in 2004-05. He was then head coach for the Varsity team for two years winning an ISHL championship in 2006-07. Rich played his college hockey at Trinity College in Deerfield, IL.

BENEFITS

Lyons Township High School is one of the largest high schools in the area. With an average of 1,000 students in each grade level, it is difficult for students to mingle and find classmates that share their interests. Sports and clubs are a great way to alleviate that problem. What better way for hockey players to share their passion with their classmates than to join them on the ice each week!

High School Hockey rules allow incoming Freshman to roster on Spring League Teams in March as 8th grade students. This gives those students an upper hand as they enter the overwhelming high school atmosphere by allowing them to meet their future classmates before the summer begins! What a great feeling to walk into South Campus on the first day of school and know 20-30 students already!

Games often take place on Friday nights and weekends providing a great outing for non-players to come and cheer the team on sporting "BLUE AND GOLD" colors in the stands!

Visit www.lthockey.net for schedules & additional information.
