

USA HOCKEY OFFICIAL PLAYING RULES

Points of Emphasis

2007-08 and 2008-09 Playing Seasons

The goal of USA Hockey is to promote a safe and positive playing environment for all participants while continuing to focus on skill development and enjoyment of the sport. All officials, coaches, players, parents, spectators and volunteers are encouraged to observe these “Points of Emphasis” when participating in the sport of ice hockey.

Fair Play and Respect

Fair play and respect are the backbone of any successful amateur sports program. In order for a positive environment to be created, it is imperative that all participants and spectators have respect for all players, coaches, officials, administrators, spectators and the sport of hockey. Hockey is a game demanding high levels of concentration and skill.

Intimidation or “bullying” has no place in ice hockey. Any act that includes taunting or teasing of players, coaches, officials, or spectators by means of verbal ridicule, obscene gesture, threat of physical violence, or physical violence itself will not be tolerated at USA Hockey events.

Players are encouraged to develop a deep sense of respect for all (opponents and officials) while endeavoring to enjoy the sport and improve their playing ability. Each player is encouraged to use proper skill and technique when engaging in any type of body contact.

Coaches are responsible for instructing their players to play the sport in a safe and sportsmanlike manner. To that end, coaches are directed to teach only those skills necessary to allow for proper and legal body contact.

Officials should be diligent and confident when officiating the sport. Each official should enforce the playing rules fairly and respectfully.

Spectators are encouraged to support their teams while showing respect for all players, coaches, officials and other spectators.

Standard of Play and Rule Emphasis

USA Hockey will continue to observe the Standard of Play and Rule Emphasis adopted in June 2006. The goal is to reduce restraining infractions in the game, allowing the skill levels of the participants to determine the outcome of a game and to increase participant enjoyment. There is no intention to remove legal body checking or body contact. A legal body check or using body contact or position to gain a competitive advantage over an opponent should not be penalized as long as it is performed within the rules.

Conclusion

Hockey should be enjoyed by all participants. To that end, all participants and spectators should observe a level of personal behavior that demonstrates respect for all. The USA Hockey Officiating and Coaching Education programs will continue to increase awareness among all officials and coaches with regard to these Points of Emphasis and the Standard of Play and Rule Emphasis.
